

Southwest Motorsports High Performance Driver Education (HPDE)

SWMS offers High Performance Driver Education as an avenue to learn more about, and improve upon driving skills through rigorous classroom and on-track instruction by a team of experienced drivers/racers.

Driving in SWMS HPDE sessions are learning experiences, and should not be construed as racing sessions. Although we will build toward near-racing speeds, school sessions are offered as a way to learn precise driving lines, and to further knowledge of the rules of physics which govern driver/car behaviors in motion.

Instructors have the right to police all driving activities, including asking the student to slow his/her vehicle, change driving behavior, and/or to pull off the track for consultation. SWMS HPDE reserves the right to bar any student from further on-track activity, who does not accede to the instructor's wishes.

SWMS membership is not required for SWMS HPDE (your first two days). However, once graduated from the class you will be required to become a dues-paying member of SWMS in order to participate in either the Competition or Non-Competition events.

HPDE participants are required to attend all SWMS drivers' meetings, and to have their cars pass through SWMS Technical Inspection. The mandatory drivers' meeting both days will start at 8:00AM, with the first class session starting *immediately* after the end of the drivers' meeting.

HPDE participants will be required to attend all classroom and on-track sessions in order to graduate from the school, and to continue to the next level of on-track activity. **There are no exceptions.** Graduates will receive a SWMS driver's logbook to record their driving history.

We will teach you both the specifics of driving on the Sandia Motor Speedway 14-turn road course plus the general knowledge necessary to drive any car, anywhere, safely at high speeds.

If you have any questions regarding SWMS HPDE please contact Head Instructor John Slenes (505-298-7007, jfslenes@aol.com) for further details.

Lunch will be available at the track, served at the concession stand by the Sandia Motor Speedway personnel. The facilities are the best in New Mexico and the cream of the crop for all of the Southwestern United States.

Tech and registration will run Friday afternoon from approximately 3:00 PM to dusk. Saturday morning tech and registration will be open at 6:00AM. If it all possible, get your car teched Friday, to avoid the last minute rush Saturday morning. (For other tech times, contact Dave Porter (505-352-1378, frogeye@porterscustom.com)

The gates to the track will open at 6:00AM both Saturday and Sunday.

This is one of the best values for the money this side of the Mississippi. Come join us!

SWMS High Performance Driver Education (HPDE) Registration Form

DRIVER INFORMATION: (one form per driver)

Name: _____
